

Power Transmission

ERIKS' unique power transmission expertise integrates hydraulics, pneumatics, bearings, electro mechanics and motion control to bring you perfectly tailored solutions

Fenner Pulley

- Dual Groove
- Synchronous
- Available off the shelf
- Pilot Bore
- Taper Lock Shaft System

Fenner V Belts

- Ideal solutions for standardization
- Flexibility of speed ratio
- Superior Antistatic and Oil Resistance

Fenner Chain & Sprockets

- Advance products of Standard and PLUS
- Pilot Bore
- Taper Lock Shaft System
- Simplex, Duplex and Triplex Form
- Sizes: 05B to 20B

Fenner Synchronous Belt

- High power transmission
- Accurate positioning
- Meet most applications requirement.

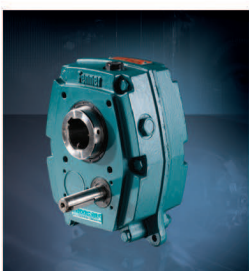

Fenflex Coupling

- Highly elastic and lubrication free couplings
- Tolerate large amount of misalignment
- Simple installations and inspection
- Excellent shock absorbing properties
- Reduced Vibration and torsional oscillations

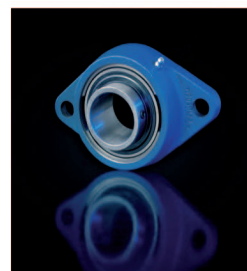

Fenner Taper Lock Bush

- Machined to exact tolerance in cast iron and steel
- Tried and tested in over 40 million applications
- Most successful shaft fixing in market place
- Full range in metric and imperial sizes
- Full range of weld on hub, bolt on hub and adaptors

Fenner SMSR

- Shaft Mount Speed Reducer
- Rugged design
- 50% increase in power to weight ratio
- More compact for easier handling
- Increase range of bore size

Bearings

- Deep Grooved Ball Bearing
- Angular Contact Ball Bearing
- Thrust Bearing
- Cylindrical Roller Bearing
- Pillow Block
- Full Range of design and available in stock
